

Acquard Doodles

ONE YEAR HEALTH GUARANTEE

Your puppy is guaranteed to be in good health at the time you take him/her home. He/she will have first set of shots and worming around 7 weeks old. He/she has been examined by a licensed veterinarian and was in good health. If in the first week the puppy requires veterinary treatment the Corfu Darien Veterinary clinic will be used as the treatment facility if I (the breeder) will be responsible for payment of any/all bills incurred. These puppies are sold as family companions and do not include breeding rights unless a separate agreement has been negotiated. He/she is to be spayed or neutered by 18 months of age.

Your veterinarian should check your puppy in 4 weeks from the date of purchase. If your veterinarian feels that the puppy is not healthy have him/her write a letter describing the problem. You may return the puppy for a full refund or a replacement puppy due to any health problems discovered within the first month. I (the breeder) reserve the right to obtain a second opinion from my veterinarian before a final conclusion is made.

If your puppy dies within the first year from a congenital defect he/she will be replaced at no charge. An autopsy must be performed to determine the cause of death and a letter from your veterinarian must state that the cause of death is congenital. If an accidental breeding happens this guarantee is no longer valid.

As a responsible breeder, I try my best to prevent your puppy from having problems. Sometimes things do go wrong and there may be unexpected veterinarian bills. As a pet owner, you must understand that you are responsible for any veterinarian bills incurred after your puppy leaves my home for any medical conditions developed after signing of this contract and/or regular wellness visits not related to congenital defects.

If for any reason the puppy is not working out in their new home he/she will be returned to me (the breeder) by 4 months of age for a full refund. If at any point in this dog's entire life he/she needs a new home they must be surrendered to me (the breeder).
